In 2009, NASDAQ restructured and renumbered its listing rules. No substantive changes were made to the rules by this restructuring. A table that maps the location of the old rules to where they now reside is available. To view the table, please click [here](#). The new rules became operational on April 13, 2009 and can be found in the 5000 Series of the NASDAQ OMX Manual. To view the current Listing Rules, please click [here](#).

These interpretations provide guidance based on the rules, policies and procedures in effect at the time of issuance. Companies and their representatives are strongly encouraged to contact Listing Qualifications at +1 301 978 8008 if they have questions regarding transactions and the applicability of NASDAQ rules.
