NASDAQ

About NASDAQ

NASDAQ LISTS MORE COMPANIES THAN ANY OTHER U.S. EQUITIES MARKET.

Since its debut in 1971 as the world's first electronic stock market, **The NASDAQ Stock Market**, has been at the forefront of innovation, using technology to bring millions of investors together with the world's leading companies.

Today, NASDAQ, (OTCBB: NDAQ) is the world's largest electronic stock market, listing approximately 3,600 of the world's most innovative companies. It is home to category-defining companies that are leaders across all areas of business including technology, retail, communications, financial services, media and biotechnology industries. NASDAQ's competitive market structure, combined with an extensive portfolio of products and services, attracts today's largest and fastest growing companies. In fact, more companies now list on NASDAQ than all other major U.S. stock markets. NASDAQ is the fastest growing major stock market in the U.S.— and home to over half of the companies traded on the primary U.S. markets.

NASDAQ trades more shares per day than any other U.S. equities market. On NASDAQ, trades are executed through a sophisticated computer and telecommunications network – a system which transmits timely, critical investment information to more than 1.3 million users in 83 countries. NASDAQ is also among the world's best-regulated stock markets, employing sophisticated surveillance systems and regulatory specialists to protect investors and provide a fair and competitive trading environment.

About NASDAQ

Offering growth and liquidity and fostering innovative technologies, NASDAQ continues to build the most efficient trading environment worldwide — to the benefit of all market participants and investors.
