**MARKET ACCESS FEE**

The Exchange charges an annual market access fee for trading in equity derivatives in accordance what is stated below. The market access fee will be charged to the members annually in advance. New members will be charged from the first month as member of the Exchange. A refund of parts of the market access fee, proportionally to the number of months left of the calendar year, will be allowed in the event of termination of the exchange membership.

Exchange Member that is a Non Clearing Member	EUR 3,000 per year
Exchange Member that also is a Direct Clearing Member	EUR 12,500 per year
Exchange Member that also is a General Clearing Member	EUR 30,000 per year

The Exchange may from time to time offer discounts or other deviations from the abovementioned market access fees. Such discount or deviations will be notified separately.

One market access fee per group of companies

The Exchange will only charge one market access fee per group of companies, i.e. if a group of companies contains of more than one legal entity which is a Non Clearing Member, a Direct Clearing Member or a General Clearing Member, the Exchange will only charge such group of companies one market access fee. The Exchange will invoice the member with the highest market access fee within the group of companies.

A member who asserts that it belongs to a certain group of companies or members who assert that they constitute a group of companies, and thus, in both cases, that only one market access fee shall be charged to the group of companies, are responsible to demonstrate that it belongs to such group of companies or that they constitute a group of companies, respectively, in order to not be charged the annual market access fee. If the member(s) cannot provide such evidence the Exchange will charge the member(s) a market access fee in accordance with the fee list above.

**General Information regarding Discount Models**

The ETD Standard Discount and OTC/REPO Standard Discount models are automatically applied on all accounts covered by this fee list and trading the specific products. High Turnover Single account and High Turnover Multiple account are applied on accounts provided that the model has been elected for the relevant account in accordance with the instructions of the clearinghouse.

Discounts are granted when fees per clearing account(s) in aggregate amount to the above specified threshold per year.

Discounts are only applied on fees in relation to events that occur after the day when the respective threshold has been reached.

The discounted fees are reset annually, i.e. at the start of each calendar year the ordinary fees are applied.

For the purpose of counting towards the abovementioned thresholds, fees in other currencies are converted to SEK at prevailing exchange rates as determined by the Clearing House
