

Nasdaq Sustainable Bond Network

Providing detailed information on sustainable bonds for investment due diligence, selection and monitoring.

The Nasdaq Sustainable Bond Network is a market-leading database that allows sustainable finance investors to make informed decisions and financial advisors to benchmark and align issuers against the latest trends. Users can access the data through a dedicated platform that calculates a portfolio's allocation and impact, or through an API feed. In a market that is still evolving and lacks standardization, the Sustainable Bond Network provides rationality and transparency for participants.

1. Search and explore sustainable bonds globally.
2. Aggregate data on allocation of proceeds and impact on a pro-rated basis.
3. Find new sustainable investments matching your sustainability goals.
4. Simulate changes to your portfolios' sustainability based on its holdings.

Our ambition is to bring transparency to the global sustainable bonds market, equipping investors with the information they need to make data-driven decisions to help advance organizations looking to take on sustainable initiatives.

DISCLAIMERS: The Nasdaq Sustainable Bond Network (NSBN) is an informational service that describes bonds that purport to meet certain sustainability criteria as described on the NSBN website. The NSBN is not a part of The Nasdaq Stock Market LLC ("Nasdaq") or its affiliated exchanges, and bonds included on the NSBN might not be listed on Nasdaq or any other national securities exchange. These criteria for inclusion in the NSBN are not listing requirements nor are they approved by the SEC. A decision to include or exclude a bond from the NSBN reflects only a determination by Nasdaq that the bond satisfies or fails to satisfy the criteria for inclusion on the NSBN; such a decision should not be interpreted as a determination by Nasdaq that a bond satisfies or fails to satisfy any underlying sustainability criteria. Bond Issuers are responsible for determining for themselves whether publication of information about a bond on the NSBN is permissible under the laws and regulations of their applicable jurisdictions. Issuers should consult legal counsel to determine not only the permissibility of publishing information on the NSBN, but also the legal risks and consequences of doing so. Information about the NSBN and the inclusion of a security in the NSBN should not be construed as investment advice, either on behalf of a particular security or an overall investment strategy. Neither Nasdaq, Inc. nor any of its affiliates makes any recommendation to buy or sell any security or any representation about the financial condition of any company. Actual results may differ materially from those expressed or implied. Past performance is not indicative of future results. Nasdaq does not represent or warrant that any of the bonds displayed in the NSBN are suitable for or legally available for investment in any particular jurisdiction. Investors should undertake their own due diligence and carefully evaluate companies and applicable laws before investing. **ADVICE FROM A SECURITIES PROFESSIONAL IS STRONGLY ADVISED.**
