Inclusion Criteria

Nasdaq Sustainable Bond Network

The Nasdaq Sustainable Bond Network is a centralized platform for information concerning green, social and sustainability bonds that are issued around the globe. Issuers must apply to be included in the Nasdaq Sustainable Bond Network. Before publishing securities on the platform, applicants must satisfy the following criteria:

Inclusion Criteria

1. Issuers that are active participants on the Network must clearly identify the particular green, social or sustainability standards (the “Standards”) with which it purports to comply. Examples of such standards include, but are not limited to, the Green Bond Principles and the Climate Bonds Initiative Standards.

2. The Issuer must submit for publication on the Nasdaq Sustainable Bond Network a document that explains the manner in which it intends or has committed to allocate bond proceeds in accordance with the applicable Standards (“The Framework”). The Framework should, at minimum, include information on: (i) projects or project categories to which bond proceeds will be allocated; and (ii) the manner in and frequency with which it will report on its allocation of bond proceeds.

3. At least annually and until the bond proceeds have been fully allocated, the Issuer must submit for publication on the Nasdaq Sustainable Bond Network an update on the use of the bond proceeds. The first update shall be submitted to the Nasdaq Sustainable Bond Network within one (1) year of the date of the Issuer’s inclusion on the Nasdaq Sustainable Bond Network. Subsequent reports shall be submitted at least one (1) year from the date of the previous report.

4. If the Issuer makes any material change or update to the Framework, the Issuer must submit to the Nasdaq Sustainable Bond Network for publication any new or revised Framework.

Nasdaq reserves the right to deny an application for inclusion of a bond in the Nasdaq Sustainable Bond Network, or to remove a bond from the Nasdaq Sustainable Bond Network, under the following circumstances:

1. The Issuer fails to submit a signed and completed application form.

2. The Issuer fails to satisfy any of the inclusion criteria, including because it fails to provide any of the documentation required on a timely basis.

3. The Issuer fails to pay any applicable fees.

4. Nasdaq otherwise is made aware of facts that lead it to conclude that an Issuer has submitted objectively false or misleading information to the Nasdaq Sustainable Bond Network about a bond’s compliance with applicable standards.

Additional Service Requirements:

1. The Issuer must submit to the Nasdaq Sustainable Bond Network a signed application form as well as the copies of the documentation that the form prescribes.
