

Nasdaq and Take Your Seat

Accelerating Inclusivity in the Boardroom

TAKE YOUR SEAT is dedicated to increasing the number of Black directors to accelerate inclusivity in the boardroom and maximize corporate performance. Through its inclusive leadership training and broad-based relationships-driven community platform, TAKE YOUR SEAT provides clear and actionable paths for companies to achieve impactful diversity and inclusivity outcomes.

TAKE YOUR SEAT works to assist board leaders, CEOs, and executive search firms in placing Black directors by introducing them to leaders outside of their networks. Candidates can view board seat opportunities and participate in educational opportunities to advance their companies’ diversity and inclusion objectives.

TAKE YOUR SEAT hosts board education programs such as *The Inclusive Leadership Series* and *Board View* for board leaders and board-ready candidates.

Board View is a three-month board governance training for board-ready candidates. Candidates are placed into curated cohorts and receive transformational skills and practical board training from experienced board leaders to help build their knowledge and network. They are additionally paired with mentors, participate in mock interviews and board roleplays, and have opportunities to increase their exposure to leading companies.

The Inclusive Leadership Series is a six-month program dedicated to empowering board leaders to foster a sense of belonging so all can thrive at the boardroom table. It helps board members understand and advance inclusive boardrooms while fostering sustainable organizational growth by tapping into the diverse perspectives and approaches of each individual director.
