

# Nasdaq Stockholm Studio

A purpose-built broadcast & event space in the heart of Stockholm

 Mäster Samuelsgatan 56,  
111 21 Stockholm,  
Sweden.

Introducing the **Nasdaq Stockholm Studio**, a flexible, modern space built for standout moments on camera and in the room.

Designed to host everything from high impact broadcasts to intimate client engagements, the studio offers a flexible, polished environment that brings your event or production to life. Whether you're planning a bell ceremony, executive interview, podcast, conference, panel discussion, webinar, or client hospitality event, the space adapts seamlessly to your needs.

The **Nasdaq Stockholm Studio** features a large LED display, PTZ cameras, flexible lighting, professional audio, and built in Zoom capabilities for smooth, high quality broadcasts and webinars. Configure the room your way and welcome up to 70 guests. A central kitchen island supports catering or cocktail moments, while the dedicated prep kitchen ensures effortless service behind the scenes.

Need something more intimate? Our **Broadcasting Room** is made for crisp, close-up content - sound treated acoustics, a curved desk, integrated editing, and the latest cameras and microphones. Glass walls look out over the main space with a clear view of the Nasdaq bell, and it's where Börsmorgon airs daily.

## What we offer:

- Premium, fully equipped spaces for events and broadcasts
- Central Stockholm location with easy access for guests
- Dedicated producer and AV tech, supporting you end to end

## Let's create something memorable

Contact our Stockholm Events team at [EMSmktg@nasdaq.com](mailto:EMSmktg@nasdaq.com), and we'll help you design the perfect format and setup that best supports your goals.
