

Nasdaq eVestment™ Peer Benchmarking for Asset Owners

Integrate transparent institutional performance and allocation data seamlessly through API technology to validate your investment approach versus the peers.

Total Portfolio & Asset Class Performance

Query thousands of rows of institutional performance data across Public Funds and E&Fs, updated on a daily basis

Benchmarks & Excess Returns

See how your peers are measuring their own portfolios with benchmark names, returns, and excess returns

Historical Asset Allocation Data

Research historical Target and Actual Asset Allocations to contextualize years of performance data

Customizable Peer Groups & Board-Ready Reports

Create peer groups of the investors that matter most to your institution, then export visuals for your stakeholders

Nasdaq eVestment, Anywhere

Pull data into the systems you work in via API technology to query peer data as you see fit

Years' worth of data from Peer Benchmarking can now be integrated into your proprietary and third-party systems with API access to incorporate Nasdaq eVestment intelligence directly into your firm's workflows

Only Nasdaq eVestment Peer Benchmarking provides the comprehensive peer data that allows you to:

Know how you compare to peers

Use peer performance, benchmark, and excess returns data to know how you stack up versus peers

Learn how top-performers achieve results

Identify top performers in various asset classes with insight into underlying subasset class allocations and manager roster relationships

Identify bottom-performing strategies to avoid

Recognize potential pitfalls in your portfolio through impartial peer data with quartile performance

Understand Asset Allocation shifts in context

Combine years of performance and asset allocation data to understand drivers of results
