

## Memorandum

TO: Nasdaq Phlx Trading Floor Members and personnel

FROM: Dana Rutherford

DATE: October 27, 2025

RE: Communications and Equipment Reminder – Immediate Attention

---

All Trading Floor Members and personnel are reminded of Phlx's Trading Floor policy that prohibits the use of 5 GHz for wireless communication on the Trading Floor. As part of our routine checks, it has been identified that several member firms are broadcasting on the 5 GHz frequency instead of the allowable 2.40 GHz.

All Member Firms must discontinue 5 Ghz broadcasting from **all devices**. Compliance with Phlx's wireless policy is mandatory and Members have until Friday, October 31, 2025, to cease broadcasting of 5 GHz or it may be viewed as a direct violation of Nasdaq Phlx Options 8 Section 38.

Phlx networking engineers will be performing ongoing networking screening to ensure continued compliance.

If you have any questions concerning the above, please contact Dana Rutherford at 215-496-1564.
